

MEET ALLIE

Allie is a one and a half year old lab mix. She is spayed, up to date on all of her vaccinations and, is microchipped. Allie is also crate trained already!

Before her arrival at BUFA, Allie was adopted from Animal-Cruelty Society in Chicago by a great family. They love her pieces but found that it wasn't a good time to add a canine to their family so they asked Belly Up for Adoptions to take her. We, of course, said YES!!!

She is a fast learner and loves to show off new tricks and all her obedience commands. Allie is still a puppy, will keep you entertained and laughing. Classes, stability and an understanding of what you want from her, will ensure she is an even better family member. 1.5 years old is still a puppy so working WITH her will go a long way!! BUFA will be more than happy to help with that!!

Allie loves to lie in the sun, play with toys, and be with other dogs! She is always making new friends in doggy daycare at the Bellyrub Klub and gets along with everyone!!! She is also very active, likes to go on long walks and play fetch. When it comes to meeting people she isn't familiar with, Allie is curious and friendly towards meeting them. Allie greets them appropriately for such a yougin'. :)

Allie has a lot of love and energy to give to the lucky family that opens their heart to embrace this beauty.

If you are active, patient, have a sense of humor, and think your family could be just the right fit for Allie, please contact adopt@bellyupforadoptions.com or staff@bellyrubklub.com you can request an adoption application, Visit our website at www.bellyupforadoptions.com and fill out an application on there.

ALLIE
XOXO
